

TOOLS

King of Spades™ Ultimate Spades

Long, tapered cutting edge is applied before heat treating to provide a blade edge that resists dents and nicks. The cutting edge is virtually self-sharpening during use. The main shank is zinc plated aircraft tubing which makes it super strong, rust resistant, smooth and lightweight.

Includes (1) foot pad.

KS-13 13" Blade

KS-15 15" Blade

King of Spades™ Long Handle Spade

Same exceptional quality as the short handle spades. One foot-pad included.

KSLHS 12" Blade

King of Spades® Dura-Rake™

All steel construction from aircraft quality steel. Heat treated for ultimate strength and durability. The handle is crafted from aircraft quality tubing to last longer.

KS-RAKE 18 18" Head

All-Purpose Knife

Small yet strong. 2-1/4" blade. 3-1/2" handle. KNIFE-53567

Light Grafting/Pruning Knife

2-1/4" blade. 4" handle. KNIFE-53569

ARS™ uses the finest quality steel, hardens it with a special process, precision grinds the cutting edges and then hard-chrome plates the blade to resist corrosion.

Lighter Duty Pruner

Tough, handy pruning shear ideal for smaller hands and lighter jobs! Pruner Light (130DXR)

Quality at an economical price. High carbon steel blades. Quality aluminum die-cast body. HPK-KS4

Blades are tempered for a sharpness that doesn't chew, crush or slip
Even on Juniper and other resinous plants!

Regular Blade/Short Handle

Excellent for shaping or wherever tight quarters limit movement. Overall length: 22". Sheath included.

OK0215

Regular Blade/Long Handle

The longer blade and handle length make big or little trimming jobs fast and easy. 30" overall length. Sheath included.

OK0205

The Original Bypass Pruner

Unchanged for over forty years. Solid-forged metal alloy handles with a precision hardened cutting blade.

FELCO 2

Light, Compact Pruner

Designed for those with smaller hands or needing a lighter pruner.

FELCO 6

Ergonomic Pruner

Top of the range ergonomic pruner.

FELCO 8

Left-Hand Top of the Line

Left-hander's version of the FELCO 8 with all the same features.

FELCO 9

ARS™ Wreath Shears

Preferred by professionals. 7" length. HP-300L

OKATSUNE Shears

Superior blade angle engineering is the key behind smooth, clean cuts which prevent crushing of plant stock. Features the same high quality forged, quenched and tempered steel and the long lasting sharpness expected from Japanese steel.

OK0101 7" overall length

OK0103 8" overall length

Pine Needle Shear

Ideal wherever precise control and very clean cuts are required.

Length: 7.5". 1-7/8" pointed blade.

OK0207

Pointed Tip Thinning Shear

Great for repetitive clean, no crush cuts. 7.5" overall length

OK0304B

Round Tip Thinning Shear

Round tip creates a slightly stiffer blade than the OK0304 model.

Length 7.5"

OK0306

Heavy gauge steel blades make a clean cut throughout the entire blade length. The serrated cutting edge at the joint firmly grips a swaying branch. Cutting capacity up to 15mm.

BAHCO P51 23" overall length

BAHCO P51H 29" overall length

Regular Blade/Short Handle

Excellent for shaping or wherever tight quarters limit movement. Overall length: 22". Sheath included.

OK0215

Regular Blade/Long Handle

The longer blade and handle length make big or little trimming jobs fast and easy. 30" overall length. Sheath included.

OK0205

Telescoping Hedge Shears

Hard-chromed plated blades. Handles extend from 29" to 41.5"

HEEDGE-K900Z
